

50 GHz InGaAs Photodiode

- Device validation testing
- Prototype product line

18 GHz InGaAs High Power Photodiode

- Device validation testing
- Prototype products

Update Product Line

- Update current product line with new photodiodes and DFB lasers

Photodiode Production Builds

- Receive module bodies
- Ship customer prototypes

Increase TO-Can capabilities

- Increase to 30K units/month
- Increase to meet demand

Celebrate

- Celebrate a successful year

Q1

Q2

Q3

Q4

10 mW 25G DFB Laser

- Device validation testing
- Prototype product line with higher power DFB laser

RF Device Production

- Receive module bodies
- Build inventory
- Make available on DigiKey

SI Quadrature Photodiodes Production

- Customer ready devices

Conference 2023 TechConnect June 17-19

- Advances in additive manufacturing in industry
- RFoF system In package

RFoF System in Package

- Amplified version ready for production

Photodiode Builds Available

- Test & Measurement grade
- Customer ready devices

Photodiode VOA product line

- Prototypes ready
