

Capabilities Statement

NuPhotonics is committed to advancing the RF and Opto-electronics industry, one innovation at a time. Together with our partners and customers, we are creating transformative technologies of tomorrow. Join us on this incredible journey as we unlock the limitless potential of the future.

NuPhotonics

Core Competencies

- Advanced Measurement Capabilities (DC-67GHz)
 - Network Analyzer
 - Optical Network analyzer
 - Spectrum analyzer
 - Signal generators
 - Direct to die
 - Optical
 - Electrical
- Design & Simulation
- Embedded Software
- Semi-Conductor packaging
 - Complete device capabilities
 - Deliver custom solutions
- 2D/3D Fabrication technologies
 - 3D Printing
 - SLA
 - SLS
 - FDM
 - Inkjet/Aerosol
 - CNC and Laser cutting
- Ceramic PCB Manufacturing
 - Laser and Waterjet cutting

Distributors

DigiKey

Corporate Information

NuPhotonics LLC
48155 West Rd
Wixom Mi 48393, USA

UEI: XRECP3421Z94

CAGE: 9RH67

NAICS Code: 334413, 334220,
541330

SIC Code: 6512

Differentiators

- Solutions from engineering to manufacturing
- Vast portfolio of contract manufacturers
- License control for commissioned designs
- Low to high volume manufacturing
- Custom designs
- Low NRE costs
- Vast Product Line
